

# Small group video conferencing has arrived — everywhere.

## The Logitech BCC950 ConferenceCam

Today, 3 out of 4 video conferences are multi-person oriented.<sup>1</sup> And by 2015, 66 million users will be video-enabled.<sup>2</sup> Clearly small groups need a better option than huddling around PC webcams or begging for time on overbooked conference room systems.

The Logitech ConferenceCam combines HD video and superior audio in a simple, amazingly affordable package. So small groups can run their own video conferences anywhere in the office. Go ahead, set your meetings free.

### What makes the ConferenceCam Unique?

- First ever all-in-one video and audio conferencing device designed with small groups in mind
- Professional HD video lets small groups be seen
- Superior audio lets small groups be heard
- Remote control and on-unit buttons help control the call from anywhere in the room

# Logitech BCC950 ConferenceCam

## FEATURE SPOTLIGHT

### All-in-one design combines HD video with high-quality audio clarity

Business-grade video conferencing.

### UVC H.264 onboard technology and compatible with both PCs and Macs

Helps ensure plug-and-play functionality across many video conferencing platforms.

### The built-in, full duplex speakerphone and noise-cancelling microphone

Allows all meeting members to hear and be heard clearly up to 8 feet away from the base.

### High-quality webcam sensor and Logitech RightLight™ 2 technology

Improves visual quality in low light and backlit situations.

### Omnidirectional mic pickup and echo cancellation audio

Makes it seem like conversations are happening in the same room.

### Autofocus and a Carl Zeiss® quality lens

Allow detailed documents or visuals to be shared close up during calls.

### Remote control and base button control options

Quickly control camera pan, tilt and zoom and volume up/down, mute and answer/hang-up functions during call.

### A 78-degree field of view and 180-degree video pan

Makes the ConferenceCam ideal for small group meetings.

### 1080p HD up to 30 fps

Business-quality video.

### Camera height extender

Places camera focal point at eye-level for the most flattering video angles.

### Broad application compatibility

Optimized for Microsoft® Lync™ and Skype™ and works with most other popular UC platforms.
